Hi, we are the Kirk twins. We live in Liverpool with our parents. We are twelve years old and we go to St. Joseph’s School. Our daily routine is like any other normal students. We always go to school, study, do our homework, play or watch TV.

At the weekends everything is different. On Saturdays we get up early at 7 o’clock and we go to a social centre. There we do activities with the older people. We play chess and read stories. Sometimes we help them send emails and teach them how to use the computer. It’s great fun! After lunch we often go fishing or play video games. We go back home at 5 o’clock by bus.

On Sundays it’s family day. We go out with our parents. We visit other cities, go to museums and on summer days we go to the beach. We really enjoy ourselves. At the moment we are at home. My mother is preparing dinner and my father is reading the newspaper. We are doing our homework, of course!
